

TOUGH. RUGGED. VERSATILE.

The ReechCraft Bronco is a rugged, versatile, and all-terrain scaffold, perfect for commercial and residential needs. Because of its innovative design, the Bronco all-terrain scaffold is kicking up a lot of dust in the construction industry.

STABLE ON ANY TERRAIN

- Level platform height from 3 to 5 ft* (0.91 to 1.52 m) for a portable workstation
- Legs adjust to accommodate uneven and difficult ground conditions
- Easily work from 0 to 12 ft (3.66 m) off the ground

VERSATILE DESIGN

- Made with aircraft-grade aluminum
- Extra wide frame for easy plank access
- Each pair easily supports up to 600 lbs (272 kg)

EXTREMELY PORTABLE

- Frame folds flat for easy storage
- Each Bronco weighs 16 lbs (7 kg)
- Features an integrated carrying handle

*Based on a 5 in. thick platform.

>> DID YOU KNOW?

The extremely versatile Bronco is the perfect scaffold for all your commercial and residential needs. With independently adjustable legs, the Bronco makes a large, stable workstation in any location.

» BRONCO SPECIFICATIONS

The ultimate in safety, versatility, and strength, the Bronco is the one and only all-terrain scaffold. This tough, three-legged scaffold is ideal for interior and exterior applications with uneven and difficult ground conditions. The extra-wide frame (up to 42-inch (1067 mm) base spread) and tapered tripod provide unmatched stability and easy plank access. The Bronco weighs only 16 pounds (7 kg) and folds flat for easy storage and transport. No matter the project—siding, roofing, painting, windows, or masonry work—the Bronco will keep you stable on any terrain.

GENERAL SPECIFICATIONS	
Load Capacity	300 lbs (136 kg)
Stowed Base Length	27 in. (686 mm)
Extended Base Length	37 in. (940 mm)

Extended Base Width	44 in. (1118 mm)
Folded Length	35 in. (889 mm)
Middle Support Width	28 in. (711 mm)
Bottom Support Width	32 in. (813 mm)
Stowed Height	31 in. (787 mm)
Extended Height	54 in. (1372 mm)
Adjustment Increments	1.5 in. (38 mm)
Weight	16 lbs (7 kg)

Note: Specifications are for one Bronco only and are subject to change without notice.

BENEFITS + FEATURES

TAPERED TRIPOD  The tapered tripod design provides a stable base for a platform up to 24 inches (610 mm) with easy climbing access.

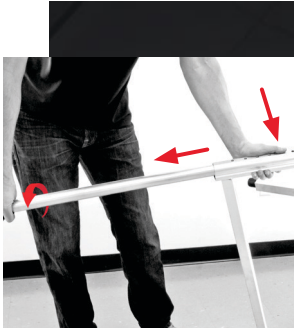

EXTRA-WIDE FRAME  The extra-wide tripod frame creates a base spread of up to 42 inches (1066 mm) for the utmost in stability, even in tight places.

HEAVY-DUTY SPREADER  The rigid, triangular design locks the legs into position and makes for an integrated carrying handle.

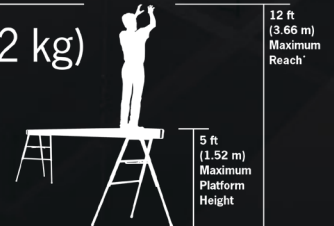

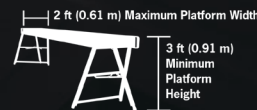

NON-SKID FEET  Each Bronco features durable, non-skid rubber feet for all-surface traction.

ADJUSTABLE LEGS WITH TWISTLOCK™  The independent telescopic legs adjust to any terrain to form a safe, level platform. Simply PUSH the solid steel locking pin, TWIST and PULL the legs, then LOCK into position.

16 lbs (7 kg) NET WEIGHT EACH | **300 lbs (136 kg)** LOAD RATING EACH

600 lbs (272 kg) LOAD RATING PER PAIR

*Based on platform height plus 6 ft (1.8 m).
